Clip History is an application for Windows that gathers all copy-and-paste functions in one place. More specifically, it creates a text history that registers all any text that you copy to the system clipboard. Key features: • Keep track of all your clipboard histories. • Add, remove, examine and save any recorded clip in a simple GUI. • Zero-in on text you want to use again. • Keep a backup of all previous clips. Application Requirements: To use the application, you only need to have a properly configured copy-and-paste buffer in place. Thus, you do not need to install an additional application. Simply download and install Clip History. After the installation is finished, run the program and click on the Clip History icon located in the system tray area. Then, you can begin using the tool the way you use any other copy-and-paste buffer in Windows. Publisher's description: Clip History is a handy tool that gathers all pasted texts into one list. In this way, you do

not have to remember what you copied before. All information is saved for easy recovery. The tool is automatically set up to be used at your system startup. So you do not have to worry about not saving any clipboard after you quit the program. AdwCleaner is a highly customizable and easy-to-use program for optimizing your PC. Every file and registry entry that is unused on your computer will be automatically detected, cleaned and safely removed. After running the program, your PC will feel fresh and fast! Technical information: This tool can remove unused files, fix broken shortcuts, and improve startup and shutdown. Each time when you run it, all cached websites will be reloaded, and outdated content will be removed from your hard drive. What's new in this version: - Added ability to Optimize Startup Process - The Cleaner will not remove any recommended applications, and all other settings will be saved - Can make Start-up and Shut-down faster - Fixed bug that can cause abnormal shutdown Free Up Disk Space: 1. This is the typical Process Explorer screenshot of the tool during installation. Clip History/Clipboard History: The exact description of the tool. Clip History List: The history List shows all text selections you've copied to the Clipboard. Clip History Properties: Allows you to adjust the tool's properties. Clip History's GUI Clip History's GUI does not differ much in terms of its look from other tools of its kind. The main window shows a list of every recorded text selection and a context menu for copying it to the Clipboard. When the tool starts, the context menu displays two buttons at the top and bottom of the window. These buttons (Settings/Exit) allow you to customize the tool's behavior, i.e., modify settings like its system tray icon's position, its run mode, icon size and color, and its keyboard shortcut (Default Key). Clip History's desktop icon is also mentioned here, as it makes it easy to access the tool at any given time. Clip History's help is also quite adequate, as it shows you how to use the tool.
